The two-kilometre Tourist Route in Wieliczka includes 22 chambers connected by galleries. A licensed, English-speaking guide will show you the ancient shafts, mysterious salt lakes, a collection of mining machines and equipment, sculptures, bas-reliefs, and the most impressive and opulent St. Kinga's chapel. Wieliczka is also known for its healing treatments. In the Salt Mine there is always 14 Celsius degrees and there is a microclimate that is heavily laden with sodium chloride, magnesium and calcium ions. The air is bacteriologically pure. The salt excavations create a "natural inhalator" which helps to strengthen the immune system and increase oxygen intake.
